# STATUS FOR 2008-2009

## Based on School Year 2007-2008 Data

State accountability in Alabama is based on the federal law known as the No Child Left Behind Act of 2001 (NCLB).

NCLB uses the term Adequate Yearly Progress (AYP) to describe whether a school or system has met all of its annual accountability goals.

**The State met all 38 out of 38 goals (100%)!**

### COMPONENTS OF AYP

1. Annual Goals for Reading and Mathematics
  - Percentage of students scoring proficient or higher (Levels III and IV)
2. Participation Rate
  - Percentage of students participating in assessments
3. Additional Academic Indicators
  - Attendance
  - Graduation Rate

### ASSESSMENTS USED IN DETERMINING AYP

- Alabama Reading and Mathematics Test (ARMT)
- Reading: Grades 3-8
  - Mathematics: Grades 3-8
- Alabama High School Graduation Exam (AHSGE)
- Reading: Grade 11
  - Mathematics: Grade 11
- Alabama Alternate Assessment (AAA)
- Reading: Grades 3-8 and 11
  - Mathematics: Grades 3-8 and 11

For more detail on the Alabama Accountability System, please reference the 2008 Interpretive Guide for State Accountability, which can be found on the SDE Web site: [www.alsde.edu](http://www.alsde.edu). Select the Accountability Reporting option on the Home page. Then select school year *2007-2008 Report*. Then select *2008 Interpretive Guide* (Adobe Acrobat File).

## ALABAMA DIRECT ASSESSMENT OF WRITING

Alabama students in Grades 5, 7, and 10 take the Alabama Direct Assessment of Writing (ADAW) each year to measure their writing skills. This table shows how well students met the performance standards for composition on this test.

## SCIENCE – MEETING OR EXCEEDING STANDARDS

The Alabama Alternate Assessment (AAA) is designed for special education students whose Individualized Education Program (IEP) teams determine that the students will not participate in the regular student testing program. The AAA measures a student's mastery of academic goals based on the state content extended standards.

## AAA SPECIAL EDUCATION STUDENTS MEETING OR EXCEEDING STANDARDS

Students must pass the Alabama High School Graduation Exam (AHSGE) to earn a high school diploma. The charts show the percent of 11th and 12th graders who passed the reading subtest and the mathematics subtest of the exam. The percent passing reflects Levels III and IV (meeting or exceeding academic content standards).

### CAREER AND TECHNICAL EDUCATION

Business/Industry Certification (BIC) is a means of assisting career/technical education programs to improve by setting standards against which all programs can measure progress. The goal is for all programs to remain in compliance with business/industry standards. The number indicates the percentage of programs that remain in compliance. The letter grade measures whether or not these programs are on track to meet that goal.

## GENERAL SCHOOL INFORMATION

**Description:** This section contains the general education demographic information for the school year 2005-2006, including student attendance, student eligibility for free or reduced-price meals, staffing information, and school safety and discipline information.

### PERCENT AVERAGE DAILY ATTENDANCE (ADA)

**Description:** This section contains the percent average daily attendance based on the 20 days after Labor Day.

**Source:** Local School System 20 Days After Labor Day Attendance Data Collection [October 2006]

**Calculations:** The ADA is calculated by dividing the aggregate attendance days reported by the number of days the school was in session during the reporting period. The ADA is converted to a percentage by dividing the ADA by the average daily membership for that period.

### 20-DAY AVERAGE DAILY MEMBERSHIP (ADM)

**Description:** This section contains average daily membership reported for each school based on the number of days each student was on roll during the first 20 days of school after Labor Day.

**Source:** Local School System 20 Days After Labor Day Attendance Data Collection [October 2006]

**Calculations:** Total Student Days in first 20 days divided by 20. Each student is counted once for each day on roll.

### FREE OR REDUCED-PRICED MEALS ELIGIBILITY

**Description:** This section contains the percentage of students eligible for free or reduced-price meals.

**Source:** Local School System Fall Attendance Report [October 2006]

**Calculations:** Total the number of students flagged as eligible for free or reduced-priced meals on the 20th day after Labor Day divided by the enrollment.

### TECHNOLOGY

**Description:** The ratio of the number of students enrolled to the number of computers in the classroom is displayed in a bar graph. In addition, a graph is provided displaying the ratio of students enrolled to the number of computers with Internet access available in the classroom.

**Source:** Survey administered by the Office of Technology Initiatives.

**FACULTY AND STAFF INFORMATION**

Description: This section contains a breakdown of staff by classification for the 2006-2007 school year. Each count represents the total of Full-Time Equivalency (FTE) for each category of professional staff.

Source: Data collected from the 2006-2007 LEA Personnel Data Collection taken in November 2006.

Calculations: Total Full-Time Equivalency for each classification except Support Staff, which is a count of individuals.

**HIGHLY QUALIFIED (HQ) TEACHER**

The *No Child Left Behind Act of 2001* (NCLB) requires that teachers demonstrate subject knowledge and teaching skills in the subject(s) and grade level(s) they teach. In addition to being properly certified by the state as a teacher through either traditional or state-approved alternative routes, and being assigned to teach in an area covered by his/her current certification, each core academic subject teacher must demonstrate subject knowledge and teaching skills in the subject(s) and grade level(s) taught through one of the state's approved options for meeting the HQ requirement.

CORE ACADEMIC SUBJECTS – The *No Child Left Behind Act of 2001* (NCLB) defines core academic subjects as English, reading or language arts, mathematics, science, foreign languages, civics and government, economics, arts, history, and geography.

**SAFETY AND DISCIPLINE**

Description: This section contains a breakdown of types of discipline problems occurring during the 2006-2007 school year and what action was taken by the administration in each type of incident. The categories included are:

- Assault
- Bomb Threats
- Drug-Related Incidents  
(Illegal drugs only – possession, use, or sale)
- Weapon-Related Incidents

The action taken does not include any in-school suspensions.

Source: Derived from the Student Incident Reporting (SIR) System based on End-of-Year SIR Data Collection for the 2006-2007 school year.

Calculations: Sum of incidents by category and the sum of students suspended or expelled by category.

**STATE ACCOUNTABILITY**

Description: **Proficiency Index** – a reporting method that allows the percent of students scoring proficient and above to be combined across grades in determining AYP. A proficiency index of zero or higher indicates that AYP was met. See 2007 Interpretive Guide for State Accountability for further explanation ([www.alsde.edu](http://www.alsde.edu)).

**STUDENT ACADEMIC PERFORMANCE**

Description: This section contains the results from all students tested during the 2006-2007 school year. Results are reported for the Alabama Reading and Mathematics Test given in Grades 3-8; the Alabama Direct Assessment of Writing given in Grades 5, 7, and 10; the Alabama High School Graduation Exam given in Grades 11 and 12; and the Alabama Alternate Assessment given to special education students who do not participate in the regular testing program.

**ALABAMA READING AND MATHEMATICS TEST – GRADES 3-8**

Description: The Alabama Reading and Mathematics Test (ARMT) is a criterion-referenced test that assesses the Alabama content standards as contained in the Alabama courses of study in reading and mathematics in grades tested.

A chart is provided of disaggregated scores for groups of students. The percent of students tested and percent of students scoring in each achievement level are displayed. Level I includes all students who did not meet the state academic content standards. Level II includes all students who partially met the academic content standards. Level III includes all students who met the academic content standards, and Level IV includes all students who exceeded academic content standards. A graph also is included that displays the percent of students in Level III and Level IV.

Source: Data file from the vendor scoring the tests.

Calculation for percent tested:  $100 * [\text{Number of students tested}] / [\text{Number of students enrolled}]$

**ALABAMA DIRECT ASSESSMENT OF WRITING – GRADES 5, 7, AND 10**

Description: The Alabama Direct Assessment of Writing (ADAW) is given each year to students in Grades 5, 7, and 10 to measure the writing skills of Alabama public school students. The percent of students tested and percent of students scoring in each achievement level are displayed. Level I includes all students who did not meet the state academic content standard in writing skills. Level II includes all students who partially met the state academic content standard. Level III includes all students who met the state academic content standards, and Level IV shows

students who exceeded the state academic content standards. A graph is included that displays the percent of students in Grades 5, 7, and 10 who met and exceeded the state academic content standard.

### **ALABAMA SCIENCE ASSESSMENT – GRADES 5 AND 7**

Description: The Alabama Science Assessment (ASA) is a criterion-referenced test that assesses the Alabama content standards contained in the Alabama Course of Study in science in the grades tested. A chart is provided that shows the percent of students scoring at each achievement level in Grades 5 and 7. The percent of students tested and percent of students scoring in each achievement level are displayed. Level I includes all students who did not meet the state academic content standard in writing skills. Level II includes all students who partially met the state academic content standard. Level III includes all students who met the state academic content standards, and Level IV shows students who exceeded the state academic content standards. A graph is included that displays the percent of students in Grades 5 and 7 who met and exceeded the state academic content standard.

### **ALABAMA ALTERNATE ASSESSMENT – SPECIAL EDUCATION STUDENTS**

Description: The Alabama Alternate Assessment (AAA) is given to special education students with significant cognitive disabilities who do not participate in the regular testing program based on the determination of the student's Individualized Education Program (IEP) Team. This test is designed to evaluate the student's mastery of academic goals based on the state content extended standards. The statistics displayed show the percent of students tested and the percent of students scoring in each achievement level of the test. Level I includes all students who did not meet the state content extended standards. Level II includes all students who partially met the state content extended standards. Level III includes all students who met the state content extended standards, and Level IV shows students who exceeded the state content extended standards. A chart is included displaying the percent of all students who met and exceeded the state content extended standards. Note that this does not include special education students who took the regular assessments.

Source: Data file from the vendor scoring the tests.

Calculation for percent tested:  $100 * [\text{Number of students tested}] / [\text{Number of students enrolled}]$

### **ALABAMA HIGH SCHOOL GRADUATION EXAM – GRADES 11 AND 12**

Description: This section shows the percentage of 11th-grade students and 12th-grade students passing the reading and mathematics subject-area tests of the Alabama High School Graduation Exam. The percentage reflects a cumulative passing rate in school year 2006-2007. A chart is provided with disaggregated scores for groups of students.

Source: Data file from the vendor that scored the tests.

Calculation for percent tested:  $100 * [\text{Number of students tested}] / [\text{Number of students enrolled}]$

### **PROJECTED FOUR-YEAR DROPOUT RATE**

Description: The projected four-year dropout rate is a measure of the cumulative proportion of the 9th-grade class that would drop out prior to graduation if that year's grade-specific dropout rate was to remain constant over the four years until that class is to graduate.

Source: Data collected from LEA dropout reports. (Values are rounded to nearest hundredth.)

Calculations:

Step 1: Calculate the number of dropouts by grade (Grades 9, 10, 11, and 12)

Step 2: Compute the average by dividing each sum by the enrollment for that grade.

Example: Grade 9 – 10 dropouts / 250 enrolled =  $10/250 = .04$

Grade 10 – 20 dropouts / 160 enrolled =  $20/160 = .125$

Grade 11 – 5 dropouts / 300 enrolled =  $5/300 = .017$

Grade 12 – 20 dropouts / 200 enrolled =  $20/200 = .1$

Step 3: Compute the probability that a student remains in school all four years:

(a) Get (1- the decimal value from 2) for each grade:  $(1-0.04) = .96$   $(1 - 0.125) = .875$   $(1-0.017) = .983$   $(1-0.1) = .9$

(b) Multiply these probabilities together:  $(.96)*(.875)*(.983)*(.9) = .743$

(c) Subtract from 1.000:  $1.000-.743 = .257$  The projected rate is 25.7% over four years.
