

## Appendix 6 - Resources

## Resources

This curriculum is built on the shoulders of others, with much appreciation to them all for their hard work paving the way! In particular, we used the Alaska Diabetes Management Guide for Training Unlicensed School Staff website (<http://dhss.alaska.gov/dph/wcfh/Documents/school/assets/Diabetes.Management.Guideline.for.Training.Unlicensed.School.Staff.pdf>) and the Virginia Department of Education Manual for Training Public School Employees in the Administration of Insulin and Glucagon website ([http://www.doe.virginia.gov/support/health\\_medical/medication/manual\\_training\\_insulin-glucagon.pdf](http://www.doe.virginia.gov/support/health_medical/medication/manual_training_insulin-glucagon.pdf)).

Training materials from the American Diabetes Association (*School Training Curriculum*), the National Diabetes Education Program (*Helping the Student with Diabetes Succeed*), the UCD Barbara Davis Center for Childhood Diabetes (*Pink Panther Book*) and other sources are listed and/or linked specific sections of the curriculum.
