The Network for Alabama Teaching Fellows (NATF) is the result of the collaboration between the Alabama State Department of Education, Alabama Education Association, and A+ Education Partnership.

OUR FOCUS
The focus of the NATF is to unify the individual voices of educators across Alabama into one, collective, powerful voice for the purpose of improving educational outcomes for all students.

TEACHER FELLOW ROLE
Each Teacher Fellow is an Alabama educator who is a leader and innovative thinker that possesses a deep-seated desire to impact education positively. Teacher Fellows serve as agents of change who will be the driving force unifying educators, local and state policymakers, the business community, and other educational stakeholders for the purpose of positively transforming the educational landscape.
