July 16, 2014

MEMORANDUM

TO: City and County Superintendents of Education

FROM: Thomas R. Bice
        State Superintendent of Education

RE: Technology Coach Survey

As part of the Alabama State Department of Education’s continuing efforts to support learners through Plan 2020, we are requesting that each district complete a brief survey to identify the prevalence of technology coaches in Alabama schools and districts. Data gleaned from the survey will assist the department in “Aligning available programmatic and fiscal resources to support local school needs in the area of instruction” as outlined in Plan 2020.

The survey is brief and should be completed only once per district. Completion of the survey may require consultation between the curriculum coordinator(s) and the technology coordinator. The survey is available at https://survey.zohopublic.com/zs/P0BWex. Please complete the survey by August 15, 2014.

If you have any questions or concerns regarding the technology coaches survey, please contact Mr. Keith George at kgeorge@alsde.edu or 334-242-9594.
