### Vulnerable Populations Supports

Describe how the following conditions will be maximized through the purchase of resources, tools, or other supports with the use of GEER funds:

- Provides streamlined approach to gather, use, and monitor identified vulnerable population data;
- ✓ Includes tools or resources to assist with development and/or implementation of individualized plans for specific needs of students;
- ✓ Includes communication tools to ensure meaningful communication in a language understood by the parents/guardians;
- ✓ Provides evidence-based learning activities that align to students' plans; and
- ✓ Provides other related or applicable services specific to vulnerable populations.

Hartselle City Schools recognizes that all HCS students are academically vulnerable after having missed so many weeks of school and with the possibility of missing additional weeks in the future. And so HCS is seeking to purchase the mCLASS Program to accompany our Amplify Reading Assessment. All K-3 students will be assessed using Amplify, and all will be served with the mCLASS resources, but the resources will be most intensively used with approximately 602 Tier III students.

mCLASS with Amplify Reading is an adaptive assessment and instructional solution that makes research-based personalized learning a reality. Students work on the skills they need to master. The curriculum offers over 40 games—each mapped to specific skills and standards—that keep students engaged.

Additionally, Hartselle City Schools is seeking to purchase GoFormative for all 2nd-12th grade students.

GoFormative syncs with our student information system and offers comprehensive formative assessments that will allow HCS teachers to act on live student responses and track student growth. Teachers can co-teach and privately share student data and appropriate teaching strategies, and this will particularly benefit our students who are receiving IEP, 504, and RtI services. Additionally, for those students who need it, GoFormative can create questions and then answers with recorded audio.

GoFormative can also convert PDFs or printed worksheets, including those found in Schools PLP, to interactive computer-like activities. The student engagement factor is higher, and families...particularly those families in economic distress... are not required to spend money on printers or printing supplies if HCS must pivot from traditional learning to digital learning.

All of these tools allow HCS to communicate to parents precisely where students are in their academic journey and together determine next steps. They also open conversations with parents about student progress and can reveal barriers to learning that can then be addressed.

HCS additionally seeks funding for summer learning. The Summer Learning model is one that can pivot to a virtual model if needed. This was so in Summer 2020. If a virtual model is not needed, Summer Learning (Camp Catch-Up) will provide 70 hours of literacy instruction to students who require such. As was the case in Summer 2020, Reading Coaches and Elementary Principals disaggregate data to determine and prioritize those in greatest need of intervention. Using that list, Reading Coaches reach out to families, explain what will be addressed in Camp Catch-Up, explain what students need, and arrange for summer learning. All is personalized. Families are a part of the process. (Because families are ALWAYS part of the process.)

### 2D. Before/After School Tutoring

Describe how the following conditions will be maximized through the purchase of resources, tools, or other supports with the use of GEER funds:

- Aligns to *Alabama Literacy Act* requirements for students who are identified with a reading deficiency;
- Provides learning opportunities outside of the traditional school day; and
- Includes description of employee duties/responsibilities aligned to intensive intervention needs.

As is true for all instruction, implementation will be monitored by building principals.  
Regular debriefings/data meetings will determine teachers' readiness to implement. Adjustments will be made as needed.
