The Alabama Reading Initiative (ARI) is a statewide K-12 initiative committed to supporting the development of high-quality instruction that will prepare all students with the literacy skills needed to meet or exceed grade-level standards. The goal of the ARI is to significantly improve reading instruction and ultimately achieve 100% literacy among public school students.

The ARI is not a program, but an ongoing professional development opportunity for a school faculty. It is a research-based extensive teacher-training program to show teachers how to achieve high levels of literacy for all of their students. ARI professional development empowers teachers with the content knowledge, skills, and strategies necessary to be successful with all students, especially those that challenge them the most – struggling readers.
