## **ACKNOWLEDGEMENTS**

Special thanks are extended to the Baldwin County School System, the Selma City School System, the Alabama State University Internship Program, and the National Parent Project® for contributions and in-kind support as *The Implementation Guide for the Alabama Parent Project Program* was developed. The saying, “It takes a village to raise a child,” exemplifies the value of caring adults focused on a common goal of facilitating opportunities for students as they become successful college- and/or career-prepared citizens.

## RATIONALE

The Alabama State Department of Education (ALSDE) in collaboration with the Juvenile Judicial System and the National Parent Project® is facilitating a statewide training program as a wraparound support for parents to reduce dropouts, discipline referrals, and teen suicides and to empower the parental position. The intent of this document, *The Implementation Guide for the Alabama Parent Project Program*, is to provide initial parameters and tools for effective implementation and evaluation of a nationally recognized program that will address many needs of our parents, students, and community.

At this time, Alabama has identified 298 trained facilitators representing each of the Alabama Regional In-service Centers (ARIC) to serve the Local Education Agency's (LEAs) and/or juvenile justice and/or community partners as a collaborative effort. The ALSDE is suggesting that facilitators contact the LEA within the respective ARIC and provide contact information. The LEA person appointed as LEA parent project coordinator is requested to contact the juvenile judge/interested community partners and to orchestrate the initial meeting to jump start a local juvenile justice diversion program or a volunteer parental support program. A pre- and post-assessment is required, and the ALSDE recommends that the Graduation Tracking System be utilized to ascertain pre- and post-information of the student behavior whose parents are attending the class. The Graduation Tracking System can be found on the ALSDE Web site. Click on Department Offices, select Prevention and Support Services, Graduation Tracking System.

Additional program implementation templates may be found as a section in the Parent Project® manual that is purchased. Only certified persons who attended a five-day training are identified as parent project facilitators.

This document, *The Implementation Guide for the Alabama Parent Project Program*, will also be available on the ALSDE Web site at [www.alsde.edu](http://www.alsde.edu). Click on Department Offices, select Prevention and Support Services, Documents/Reports, Parent Project Guide. For additional information, please contact Dr. Kay Atchison Warfield at 334-242-8165 or [kaw@alsde.edu](mailto:kaw@alsde.edu).

## PARENT PROJECT PROGRAM OVERVIEW

The **Parent Project**® was created for parents with difficult or out-of-control adolescent children. Parents learn and practice specific prevention and intervention strategies for destructive behaviors such as truancy, alcohol and other drug use, gangs, practice of the occult, running away, violence, and suicide. Parents facing these crises constantly say to officers, "Just tell me what I should do." In **Parent Project**® classes, parents receive specific, step-by-step plans for intervening in these and other destructive behaviors.

Parents are referred to the classes by officers in the field, juvenile detectives, diversion programs, the juvenile probation department, school officials, and/or the court system. Training opportunities for parents to volunteer as participants may be available based on requests.

Depending on the family's specific need, the **Parent Project**® can last 10 to 16 weeks.

Part I is called, "Laying the Foundation for Change," and consists of six activity-based instructional units. Typically, each unit is delivered as a weekly three-hour session. Parents learn identification, prevention, and intervention techniques for the most destructive adolescent behaviors and criminal activity (gangs, violence, etc.).

Part II is called "Changing Behavior and Rebuilding Family Relationships," consisting of ten topic-focused parent support group sessions. Each session is designed to provide parents practical and emotional support as they continue the process of change in their home. These two-hour sessions also include an activity-based parenting skills component.

For many parents, but especially single parents, emotional and practical support is not available to them at home. Using a highly structured, self-help support group model, the **Parent Project**® offers a vehicle for the establishment of ongoing self-help parent support groups throughout the community.

For agencies that want to work with the entire family, there is a teen component as well. "Choosing Success...Choosing Life" focuses on the choices children make and helps teens explore positive alternatives to destructive behaviors.

## MOST FREQUENTLY ASKED QUESTIONS

### Why The Parent Project?

- Thirteen years in development, the *Parent Project*® is the only course of its kind, providing activity-based instruction, support groups, and curriculum addressing the most destructive of adolescent behaviors.
- Over 100,000 families have attended *Parent Project*® classes nationwide.
- The *Parent Project*® is the largest court-mandated diversion program in Los Angeles and San Bernardino Counties, and has been adopted for statewide use in Idaho. The Office of Juvenile Justice and Delinquency Prevention (OJJDP) recently commissioned the American Bar Association's Center on Children and the Law to investigate programs currently referred to by juvenile courts nationally for parents who are court-mandated to attend parenting classes. This report identified the Parent Project® as the only program operating in multiple states; the only program with a published, structured, curriculum addressing the most destructive adolescent behaviors; and the only program with a formal training process.

(The Center's complete published report (August, 2001) is entitled "Parental Involvement Practices of Juvenile Courts, Report to the Office of Juvenile Justice and Delinquency Prevention, United States Department of Justice" and is available through the American Bar Association, Center on Children and the Law, 740 15th Street, NW, Washington, DC 20005, (202) 662-1720.)

- With a proven track record, the *Parent Project*® reduced juvenile crime by one-third, while significantly increasing both school attendance and performance.

### What is it?

- A 10- to 16-week parent training program designed specifically for parents of strong-willed or out-of-control adolescent children.
- The curriculum teaches concrete prevention, identification, and intervention strategies for the *most* destructive of adolescent behaviors (poor school attendance and performance, alcohol and other drug use, gangs, runaways, and violent teens).

## How does it work?

- Parents meet one night per week, two to three hours per night, for 10 to 16 weeks.
- Parents attend and learn in a classroom model to manage teen behavior problems at home.
- Parents receive and work within a 216 page activity-based curriculum "*A Parent's Guide to Changing Destructive Adolescent Behavior*," **available only to program participants.**
- Parent support groups are formed using the UCLA self-help support group model.

## Who teaches the program?

- Over 3,000 trained facilitators in over 30 states across the U.S. have successfully completed the 40-hour *Parent Project*® facilitator training.
- Alabama has over 400 trained facilitators with 180 actively involved and located in all eleven in-service regions.

## Why The Parent Project® Works

The overwhelming majority of parents deeply love and care about their children. Unfortunately, for many high-risk families, repeated frustrations and failures combined with the daily stresses of life often lead to feelings of helplessness.

*The Parent Project*® is an entirely new parent training model. It not only delivers new skills and insights, it rekindles hope. Parents attending **Parent Project**® classes have the opportunity to experience success at home within the first week. A strong collaborative partnership among participants enhances continued support after the completion of the program.

*The Parent Project*® was developed over a ten-year period while working with thousands of high-risk families. It is designed to revive parent's desire, teach the skills, and provide the practical and emotional support they need to change destructive adolescent behavior. It directly addresses some of the most serious questions we are asked again and again:

- My child refuses to go to school. How should I respond?
- What can I do when my child beats me up?
- How can I stop my son's gang involvement?
- My fourteen-year-old is addicted to crack and prostituting to support her habit. How can I get her back?

*The Parent Project*® offers concrete, no-nonsense solutions. The straightforward, step-by-step action plans presented in the curriculum allow parents to take immediate steps toward preventing or intervening in their children's negative choices.

## **SAMPLE PROPOSAL**

The intent of writing a proposal is to organize major components for The Parent Project with clear, concise information. The proposal may serve as the document that is shared with community partners and/or within the local education agency.

### **PROPOSAL FOR A Juvenile Diversion Program: The Parent Project**

#### **SUBMITTED BY:**

#### **CONDUCTED BY:**

#### **DATES AND LOCATION:**

#### **PARTICIPANTS:**

Parents who opt to take advantage of the program voluntarily, parents referred by juvenile judges/probation officers/social workers/mental health care workers, and/or local school board superintendents.

#### **RATIONALE:**

The Parent Project is a comprehensive, award winning model for school-based programs serving high-risk families. The “Changing Destructive Adolescent Behavior” is the only parenting skills program of its kind in the United States. The Parent Project has been adopted for use by the Alabama State Department of Education, mental health care professionals, the United States military and communities in 30 states.

The Parent Project is a parenting skills program designed specifically for parents with strong-willed or out of control children. The program is research-based and has proven to be successful in preventing, identifying, and intervening in the most destructive of adolescent behaviors.

Based on findings from the Alabama State Department of Education School Incident Report (SIR) and Youth Risk Behavior Report, poor attendance, disciplinary referrals, and risky behaviors are three areas of concern that impact student achievement and eventually a student’s ability to graduate from high school. These behaviors are often a sign that parents have lost control or lack the skills to manage correcting the behaviors without intervention.

The Parent Project is currently the largest court mandated or juvenile diversion program in many areas, including The Parent Project home region of Los Angeles and San Bernardino counties and the entire state of Idaho. In Idaho the county probation officers report one-third reduction in juvenile crime and one year recidivism rates as low as 4% after mandating The Parent Project classes.

**OBJECTIVES:**

The Parent Project will provide parents with the necessary tools and skills to:

1. Increase awareness of risky behavior.
2. Increase decision-making skills to address risky behaviors when confronted.
3. Reduce problematic outcomes of risky behavior, sexually transmitted diseases (STDs) especially HIV, school age pregnancy, drug addiction and emotional problems.
4. Reduce poor school performance such as: poor school attendance/truancy, disciplinary referrals, and juvenile crime.
5. Increase grade-level promotion and high school graduation rates.
6. Develop and maintain a positive support system.
7. Develop an open channel of communication between the home, school, each connected community agency, and the judicial system.

**ACTIVITIES:**

Parents will attend a mandatory ten sessions out of a 16-session program. Parents will participate in individual and group activities. Each activity is designed to reinforce the skills that parent participants learn each session.

**EVALUATION:**

Pre- and Post-Questionnaires will be developed and given to all participants attending the training to complete. The Questionnaires will include basic demographic information and basic parenting skill comprehension. Additionally, at the conclusion of the program evaluation forms will need to be completed by each parent participant. The evaluation summary will be used to evaluate the overall effectiveness of The Parent Project and to improve any areas of weakness or concern for future program implementation.

# SAMPLE PARENT PROJECT MEETING I

## Board of Education

### Agenda

**Date:**

**Items discussed during the meeting are as follows:**

**I. Desired Outcomes:**

**Start-up:**

- Parent Project Proposal written, edited, and approved
- Parent Project timeline written, edited, and approved
- Parent Project brochure & logo created, edited, and approved
- Parent Project newspaper article written, edited, and approved
- Parent Project flyer designed, edited, and approved
- Parent Project parent letter written, edited, and approved

**Program related:**

- Decrease in dropouts
- Decrease in delinquent/risky behaviors
- Decrease in absenteeism
- Improved student health and wellness
- Decrease in juvenile restitution
- Improved parent and student relationships
- Connecting the Dots in the Truancy Triangle: Triangle Base-Parents & Children, Side 1- Judicial System (District Judge, Mayor, Probation Officers & Law Enforcement), Side 2- School System

**Questions to Ponder:**

1. Who are the potential partners? (District Judge, Mayor, DHR, Children Policy Council, etc.)
2. Will the local education agency independently or jointly sponsor The Parent Project for the entire county?
3. Where will the funds to support the cost of Facilitators be secured? (\$25 per hour, \$75 per day, 16 sessions, three hours each session (16 X 3 = 48) 48 X 25 = \$1,200 per facilitator.)
4. Who will contact and select the Facilitators?
5. How will the parent participants be selected? (open to the public, first-come, first-served, pre-selected list, juvenile judge)?
6. Does an acceptance criteria for parent participants need to be created?
7. How will the parent project be evaluated for effectiveness? (Indicators?)
8. What facility will be used to hold the weekly parent project meetings? (local schools and/or colleges)
9. Will refreshments be served? If so, who will fund/sponsor?
10. What date will launch The Parent Project?
11. What will be the dates for parent enrollment, if applicable?
12. Who will be the contact person for enrollment, questions and concerns?

**II. Things To Do:**

- Get Parent Project Proposal approved
- Get Parent Project timeline approved
- Parent Project brochure
- Parent Project newspaper article
- Parent Project flyer
- Parent Project parent letter
- Contracts, if applicable
- Evaluation tool
- Locate the facility to hold weekly parent project meetings
- Decide the launch date for the Parent Project
- Decide enrollment dates for parent sign-up if applicable
- Secure funds
- Order Parent Project books for parents 15 parents maximum per facilitator
- Order leadership packet materials (index cards, transparencies, videos, role play cards, etc.)

## Agenda

**Date:**

**Items discussed during the meeting are as follows:**

**I. Contact Information Exchanged:**

**Identify Trained Parent Project Facilitators who may be interested in serving as a Facilitator**

**II. Questions to Ponder:**

- 1. Who are the potential collaborative partners?** (District Judge, Mayor, DHR, Children Policy Council, etc.)
- 2. Where will the funds come from to support the cost for 1-5 Facilitators?** (\$25 per hour, \$75 per day, 10 Sessions, 3 hours each session (10 X 3 = 30) 30 X 25 = \$750 per facilitator.)

**Neighborhood school training sites provided:**

- **\_\_ Parent Project Facilitators** (One facilitator per time slot and One facilitator hired to serve as a substitute facilitator and parent make-up session instructor)
- **\_\_ Parent Slots** (60 parents may participate in the Pilot Parent Project)
- **\_\_ Time Slots** (Morning, Afternoon, and Evening time slots are available for parents to select from)
- **\_\_ Locations** (Acknowledging transportation may be a problem, we have set up more than one training site to accommodate parents on all sides of town)

3. **Who will select the 1-5 Parent Project Facilitators?**
4. **How will the parent participants be selected? (Open to the public, first-come, first-served, pre-selected list, etc.)?** Parent Facilitators will be given first priority for recommending active parent participants who have consistently shown up for other community scheduled parent meetings and activities. The parent facilitators will generate a list of parents that they recommend who will commit to coming to all ten sessions. Fifteen slots will be given per facilitator for the first pilot parent project. After the initial facilitators have compiled their list, we will fill any extra slots on a first-come-first-served basis. The over flow will be placed on a waiting list for the next session. Once the Parent Letter, Flyer and Brochure have been approved, all parents with children attending local schools will be notified. The materials will be printed and sent by the local board to all schools and specified places for distribution. Also, once the newspaper article has been approved, it will be submitted to the newspaper.
5. **How will the parent participants be selected? (Open to the public, first-come, first-served, pre-selected list, etc.)?** Parent Facilitators will be given first priority for recommending active parent participants who have consistently shown up for other community scheduled parent meetings and activities. The parent facilitators will generate a list of parents that they recommend who will commit to coming to all ten sessions. Fifteen slots will be given per facilitator for the first pilot parent project. After the initial facilitators have compiled their list, we will fill any extra slots on a first-come, first-served basis. The over flow will be placed on a waiting list for the next session. Once the Parent Letter, Flyer and Brochure have been approved, all parents with children attending local schools will be notified. The materials will be printed and sent by the local board to all schools and specified places for distribution. Also, once the newspaper article has been approved, it will be submitted to the newspaper.
6. **Do we need to create acceptance criteria for parent participants?**  
Yes. However, the criteria will only be used by the committee for the final selection of parents. The criteria will not be made public. The suggested criteria are as follows: (1) At risk of failing; (2) High absenteeism; (3) Homelessness; (4) Discipline referrals; (5) Health Concerns.

**7. How will the Parent Project be evaluated for effectiveness? (Indicators?)**

Pre- and Post-Evaluation Forms are included in the training manual. A sample of the post evaluation is shared for review. Refer to the Graduation Tracking System for additional indicators.

**8. What facility will be used to hold the weekly parent project meetings?**

**9. Will we serve refreshments? If so, where will the money come from to purchase them?**

**10. Who will officially serve on the Parent Project committee?**

**11. What date will we launch the pilot Parent Project?**

**12. What will be the dates for parent enrollment, if applicable?**

**13. Who will be the contact person for enrollment, questions, and concerns?**

## Learn how to "Out Will" a strong-willed child!

The Parent Project is a comprehensive, award-winning model for school-based programs serving high-risk families. The "Changing Destructive Adolescent Behavior" is the only parenting skills program of its kind in the United States. The Parent Project has been adopted for use by the Alabama State Department of Education, (LEA City) Schools, District Judges, Mayors, the Department of Human Resources, the Children Policy Council, mental health care professionals, the United States military, and communities in 30 states.

### Why The Parent Project

Thirteen years in development, The Parent Project® is the only course of its kind, providing activity-based instruction, support groups, and curriculum addressing the most destructive of adolescent behaviors.

Over 100,000 families have attended The Parent Project® classes nationwide

With a proven track record, The Parent Project® reduced juvenile crime by one-third, while significantly increasing both school attendance and performance.

- Builds hope for families and communities
- Provides specific no nonsense solutions to the problems parents face today
- Offers practical and emotional support to families as they begin the difficult process of change
- Decreases drop outs
- Decreases delinquent behaviors

**The tougher it gets to be a kid...  
the tougher it is to be a parent**

### How does it work?

- Parents meet one night per week
- Parents attend a two- to three-hour session for ten weeks
- Parents will graduate and receive a stipend at the end of the ten-week training

### Parents will learn how to:

- Prepare their children for a successful school experience in middle and high school
- Create a home discipline structure that works
- Improve school attendance and performance
- Prevent alcohol, drug, and gang involvement
